Notes

- Data refer to 2019 or the most recent year available.
- In calculating the HDI value, expected years of schooling is capped at 18 years.
- Based on data from OECD (2019b).
- In calculating the HDI value, GNI per capita is capped at \$75,000.
- Updated by HDRO based on data from Eurostat (2019).
- Based on projections from Barro and Lee (2018).
- Value from UNDESA (2011).
- Imputed mean years of schooling for Austria.
- Estimated using the purchasing power parity (PPP) rate and projected growth rate of Switzerland.
- Updated by HDRO based on data from UNESCO Institute for Statistics (2020)
- Based on data from the national statistical office.
- Estimated using the PPP rate and projected growth rate of Spain.
- Updated by HDRO based on data from United Nations Children's Fund (UNICEF) Multiple Indicator Cluster Surveys for 2006–2019.
- Based on cross-country regression.
- Updated by HDRO using projections from Barro and Lee (2018).
- Updated by HDRO based on data from ICF Macro Demographic and Health Surveys for 2006–2019.
- Based on cross-country regression and the projected growth rate from UN ECLAC (2020).
- Updated by HDRO based on data from CEDLAS and World Bank (2020).
- HDRO estimate based on data from World Bank (2020a), United Nations Statistics Division (2020b) and UN ECLAC (2020)
- HDRO estimate based on data from World Bank (2020a) and United Nations Statistics Division (2020b), and the projected growth rate from UNESCWA (2020).
- HDRO estimate based on data from World Bank (2020a), United Nations Statistics Division (2020b) and IMF (2020).

Definitions

Indicateur de Développement Humain (IDH) est un indice composite mesurant la moyenne des trois dimensions fondamentales du développement humain : une vie longue et en bonne santé, la connaissance et un niveau de vie décent.

Espérance de vie à la naissance: Nombre d'années qu'un nouveau-né peut s'attendre à vivre

Durée de scolarité attendue: Nombre d'années de scolarité qu'un enfant peut s'attendre à recevoir lorsqu'il est en âge de rentrer à l'école si aucune évolution ne se produit durant son âge de scolarisation.

Durée moyenne de scolarisation: Nombre d'années moyen d'éducation reçue par les personnes de 25 ans et plus

Produit National Brut (PNB) par habitant: valeur totale des biens et des services obtenue par l'activité économique au cours d'une année sur le territoire de référence auquel on ajoute les revenus produits à l'étranger divisé par la population

Sources principales

Columns 1 and 7: HDRO calculations based on data from UNDESA (2019a), UNESCO Institute for Statistics (2020), United Nations Statistics Division (2020b), World Bank (2020a), Barro and Lee (2018) and IMF (2020).
Column 2: UNDESA (2019a).
Column 3: UNESCO Institute for Statistics (2020), ICF Macro Demographic and Health Surveys, UNICEF Multiple Indicator Cluster Surveys and OECD (2019b).
Column 4: UNESCO Institute for Statistics (2020), Barro and Lee (2018), ICF Macro Demographic and Health Surveys, UNICEF Multiple Indicator Cluster Surveys and OECD (2019b).
Column 5: World Bank (2020a), IMF (2020) and United Nations Statistics Division (2020b).
Column 6: Calculated based on data in columns 1 and 5.
